### SGNA MISSION AND PURPOSE

The Society of Gastroenterology Nurses & Associates, Inc. is a professional organization of nurses and associates dedicated to the safe and effective practice of Gastroenterology and endoscopy nursing.

SGNA carries this out by advancing the science and practice of gastroenterology and endoscopy nursing through education, research, advocacy and collaboration and by promoting the professional development of its members in an atmosphere of mutual support.

### LEARNING OBJECTIVES:

1. Define GERD and various surgical options.
2. Discuss patient safety considerations using CO2 for insufflation during flexible endoscopy procedures
3. Describe differences between endoscopic EUS & traditional endoscopy.
4. Explain the surgical treatment of diverticulosis
5. Explore “Leaky Gut Syndrome” and GI Nutrition
6. Discuss the role and the impact of fecal transplantation for treatment of refractory CD infection
